

Stratis

Stratis C# Full Node

Enterprise grade blockchain in an environment you know

Implement your own fully featured blockchain in C#

with all the benefits of running it on the .NET Core framework. Offers smart contracts, sidechains and a selection of consensus algorithms for a performant, flexible and energy efficient solution.

Why customers use the Stratis C# Full Node

- ✓ Ease of development
- ✓ Create your own tokens
- ✓ Sidechains for flexibility & performance
- ✓ Smart contracts to automate business processes
- ✓ Open source, but with Stratis consultancy services available where needed

What is the Stratis C# Full Node?

The Stratis Full Node is open source, written entirely in C#, and runs on the .NET Core framework. Implement powerful blockchain solutions out of the box and utilize languages and tools you know like Visual Studio.

Why a leading healthcare business chose Stratis

- ✓ Convenience & continuity from ICO to blockchain deployment
- ✓ Run public and private blockchains on identical stacks
- ✓ Turnkey solution, from fundraising & token distribution, to design and development
- ✓ Accommodate heterogeneous business requirements on a homogeneous platform

Why a leading automotive business chose Stratis

- ✓ Performance benefits from POS consensus & sidechain operations
- ✓ Cultural fit with the Stratis Platform team.
- ✓ Breadth of ecosystem transactions demands superior performance & tunable response characteristics
- ✓ Ecosystem will extend & grow over time, so excellent fit needed to assure long-term partnership

Why a radical transformation business chose Stratis

- ✓ Speed of deployment using accessible, open source C# code
- ✓ Alignment of vision & openness to partnering
- ✓ Ability to clone Stratis codebase & start staking on own nodes to operationalize rapidly
- ✓ Flexibility of Stratis architecture complements the organization's span across diverse domains

"It wasn't just that Stratis is a great technology platform for moving our existing business onto the blockchain, it was the enthusiasm and insights Chris & the team offered that made them the obvious partner for us"
